

P.E.S. University
Dept. of Computer Applications
Session: Jan -May 2020

WEEKLY REPORT

Week No:07	
From: 1/03/2020	To: 07/03/2020
<p style="text-align: center;">Details of Work done</p> <ol style="list-style-type: none">1. Linking of user table with profile table so that user can update his profile and become pet sitter,walker,trainer or full time.2. Created a post section where user who wants to become a pet lover can post about himself and a picture of himself with a pet and it can be seen by normal users. For that created a seperated model named as pet post where in petlover is an attribute which is a foreign key to the profile of the user.3. On the homepage itself ,created a link to the profile of the posted pet_lovers, so that normal users can view their profile and look his posted pictures with pet and read about his profile.4. Pet_lover can also update and delete the post and view other users profile. But have to be logged in in order to view the post posted by any pet lover.5. All the data of being inserted , deleted and updated was seen in the database.
